The outlook for a fine crop of corn, oats, wheat and tobacco was never better in Breckinridge county. The Tennis Club had an enjoyable time Saturday afternoon. Quite a number of ladies were present as visitors, and several good games were played. I am told, Miss Lucy Frank served most delicious cream and Miss Ree Washington supplied cakes. Certainly such dainties served by two such charming young ladies added greatly to the pleasures of the afternoon.

Miss Julia Greenwood sends regrets to the Reading Circle that she will be compelled to cancel the engagement made to entertain it the second Saturday in July. Such being the case the regular meeting will be the first Saturday afternoon at 2 o'clock at the home of the Secretary. All are urged to be present promptly.

The Bay View Reading circle met with Miss Ree Washington on Friday from 2 to 6 o'clock p. m. Being unavoidably absent, I am not prepared to give a full account as I should like to do. A most excellent program had been arranged on which Misses Drury, Washington, Julia and Maggie Greenwood, Mesdames Wathen, McGlothlin and Piggott were to have articles and from the subjects assigned and the talent of each individual, I am safe in saying it must have been a decided success, apart from the hospitality of Miss Washington and her parents (which is proverbial) who on this occasion, I am sure, entertained their guests royally.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

About 1:20 a. m. Thursday our town was awakened by the dreaded cry of fire! fire! and bells were ringing and people were howling and running along the streets, but all of a sudden the noise ceased and groups of people of the town were seen here and there discussing the cause of the fire and letting the furious flames devour their prey. Some saw what it was and returned home, others watched it until the building fell. "It was the caboose burned by the hand of some infuriated person whom hell would be ashamed to own."

## Pie Eating.

To THE EDITOR OF THE SUN—Sir: At a restaurant of good repute here they gave me a piece of pie which I could not eat conveniently with my fork, and they brought me no knife with it. What was I to do? Well I took it in my fingers and ate it. Did I do right? Else, what should I have done? CYNUS S.

Cryus was unexceptionable. The orthodox rule for pie eating is found in this story:

"My! ma," said a carefully guarded daughter, "but this pie is good."

"Mary Ann," said the mother from another room, "did I hear the sound of a knife on your plate? If I did, you don't let me have to tell you that again."

Pie, an American glory, should be eaten in the fingers, like a piece of bread and butter. Eaten otherwise, much of its flavor and delight is thrown away, which is contrary to sound aesthetic principles.

Note.—Pies should be constructed and baked with a view to this custom. They must not have too much juice in them of any sort, or be too flabby in the undercrust.—N. Y. Sun.

Hair pin and belt buckle attached for 20 cents. Something new at Babbage's.

Only the importers want a duty on tea. If additional revenue is needed Congress will be wise enough to put the burden on beer or liquors and not on tea or coffee.

Mr. T. Simmon's handsome new store with dwelling above, is about completed. It is quite an addition to the head of Main street where he is doing a large business.

Chas. M. Nevitt opened his business school at Masonic hall Monday morning, (see his ad in this paper.) He is fully qualified to instruct in each branch specified and asks your patronage either boys or girls. Fit yourself to be self-sustaining, independent. Commence in the morning of life and be prepared for the evening of existence. The step was not as important for a young lady thirty years ago as to-day. Every avenue invites her now and she can step in to win. Good boarding facilities at reasonable rates can be procured here.

All aboard for the convention! The orchestra will soon be in full blast; all the "Krupp gun politicians" will be there smiling like the summer girl in her ethereal loveliness, with his ton of aspirations on hand, each one declaring he's here to present another landlille. Let us hope they are all there for a big scramble of unity, to erect the loftiest platform ever constructed by a party and may it be mounted by each and every man bearing the insignia "Democrat," laying aside every difference to insure the whole ticket success. It should be a retrospective and prospective period.

The way to cure a cough is to stop the coughing. Dr. Bell's Pine Tar Honey cuts loose the mucous, heals the lungs and bronchial tubes quickly. Cures grip cough in one night. Early apples are beginning to ripen. It seems we are to have an abundant crop of apples this time, and we feel comforted somewhat for the loss, by frost, of nearly all of our other fruits.

Farmers are in the midst of wheat harvest. Wheat is generally good. Of course, that that was sowed on poor land without fertilizer isn't worth cutting, but that was the sorry farmers' fault.

We all want to attend the District Conference at Brandenburg next week, and we are going to, if we can. It is an opportunity and while its true we have to have the substantial things of this life, there are "weightier matters."

There is to be another fight for temperance in Breckinridge county. Those who fail to vote, as well as those who vote in favor of whiskey are criminally guilty. What if a few old toppers do send off and get a jug now and then. Please let's don't help our dear young men and boys on to perdition. I imagine a vote for whiskey will be a terrible thing to face on the Judgment Day.

## Owens Pink Mixture

Is a truly wonderful thing for children, says the Chattanooga News, May 30, 1895. It is perfectly harmless. No family who has once used Owens Pink Mixture will be without it.
